Jaypee Race Circuit

The 5.14km long Jaypee International Race Circuit has been designed by renowned German architect and racetrack designer, Herman Tilke, who has also designed other world class race circuits in Malaysia, Bahrain, China, Turkey, Indonesia, the UAE, South Africa, South Korea and the US.

The Jaypee International race track has been designed as one of the fastest, most exciting circuits in the world and we're sure that both racers and race fans will like the circuit layout. The track will host some of the most challenging motorsports events in the world and it is well suited the requirements of powerful, high-spec racing cars and motorcycles. The track's combination of straights, corners and elevation changes has been designed to allow high speeds and provide opportunities for overtaking, which is what makes motor racing exciting. At the same time, in terms of adherence to safety norms and regulations, run-off areas and medical facilities etc., Jaypee International will be one of the safest racetracks in the world.
